

REPORT OF EXAMINATION OF ALASKA SALMON STREAMS

Department of Commerce
Bureau of Fisheries

FEB 8 - 1927

FISHERIES

Name of stream (1. Game Cove
(2. Light House
(3.
(4.
(5. Falls Creek

Date examined Aug. 25, 1926.

Location Hawk Inlet

Approximate length. Average 1 mile Width 25-30 ft. Depth one foot

Condition and stage (Whether clear, high, low, etc.) High water Yellow
Lakes, if any, size, character, and whether accessible from sea.

Salmon run (heavy, light, averaged, etc.) Heavy in each stream except Game Cove.

Date and duration of run of each species. July 10 to About September 1.

Estimated number of each kind of salmon on spawning beds or in stream.

| | |
|----------------|--------|
| 1. Game Cove | 300 |
| 2. Light House | 10,000 |
| 3. | 5,000 |
| 4. | 10,000 |
| 5. Falls Creek | 15,000 |

Former size of runs of each species and evidence of depletion, if any.

Have no knowledge of former runs. All runs look well except
Game Cove. Only dog salmon were found.

Where markers are placed. About 500 yards from mouth of Game Cove and Light
House. Head of bay is closed taking care of other three.

Remarks, sketches, etc. I was first stationed at Kelp Bay. There were no
salmon running in the streams yet when I was transferred to Hawk Inlet,
where I watch five streams.
